

Course Breakdown by Criteria

We currently have these courses that easily fit into the following categories (some fit into more than one category and are marked as “up to ___ hours,” or into other categories not listed such as confidentiality, documentation, referral, etc.). If you need specific designations, we suggest that you do not have us place addictions or counseling on your certificate, but that you do so according to your needs and reasonableness using the “up to ___ hours” guidelines not exceeding the total for that course.

Course Title	Usual Category	CEUs	Fee
